

Subject Index for Volume 60

Word(s), Vol (No) : Initial Page

- 24-h-race 60(4): 231
- acupuncture 60(3): 151
- acute effect 60(2): 106
- adipokinetic hormone 60(2): 106
- aerobic capacity 60(5): 293
- affective disorders 60(2): 106
- age 60(1): 11
- age group 60(3): 137
- aged 60(2): 124
- aging 60(5): 284, 60(5): 293
- alcohol 60(6): 327
- aldosterone 60(2): 97
- alternative medicine 60(1): 62
- animal behavior 60(2): 106
- ankaflavin 60(3): 158
- Ankascin 568 60(3): 158
- anti-aging 60(5): 284
- anti-inflammation 60(4): 242
- antioxidases 60(5): 284
- apoptosis 60(5): 267, 60(6): 338
- arginine vasopressin 60(4): 215
- athlete 60(1): 11
- autonomic 60(1): 41
- B vitamins 60(4): 207
- Bassoon 60(4): 215
- biochemical alteration 60(3): 183
- blood 60(1): 54
- blood sugar 60(1): 62
- body fat 60(4): 197
- Ca²⁺ 60(1): 32, 60(2): 114, 60(3): 174, 60(4): 215, 60(5): 275
- cancer stem cell 60(2): 81
- cardiac apoptosis 60(3): 166
- cardiomyocyte apoptosis 60(2): 89
- carvacrol 60(5): 275
- catalase 60(1): 1
- CD44 60(2): 81
- cell cycle 60(5): 267
- central cardiovascular regulation 60(6): 353
- circadian rhythm 60(4): 215, 60(6): 313
- CNQX 60(1): 23
- colitis mouse model 60(6): 345
- collagenase 60(5): 259
- compensated hypertrophy 60(3): 166
- controlled hypotension 60(3): 151
- cortisol 60(2): 124
- curcumin 60(5): 267
- cyclooxygenase-2 60(4): 242
- cyclosporine 60(6): 338
- decompensated hypertrophy 60(3): 166
- Dextran-Texas Red 60(1): 41
- diabetes mellitus 60(1): 62
- DM complications 60(1): 62
- electroacupuncture 60(3): 151
- endoplasmic reticulum 60(1): 32, 60(3): 174, 60(5): 275
- exendin-4 60(2): 89
- exercise 60(2): 124
- female athletes 60(3): 137
- food restriction 60(2): 97
- fura-2 60(1): 32
- gastrin releasing peptide 60(4): 215
- glucocorticoid 60(1): 23
- glutamine 60(6): 329
- glutathione peroxidase 60(1): 1
- heat acclimation 60(5): 301
- heat exposure 60(5): 301
- hematoma 60(5): 259
- high glucose 60(2): 89
- histological alteration 60(3): 183
- HO-1/Nrf-2 system 60(2): 89
- hormones and inflammation 60(6): 327
- human osteosarcoma cells 60(3): 174
- human prostate cancer cells 60(5): 275
- hyperglycemia 60(1): 23
- hypertension 60(3): 158
- hypotensive anesthesia 60(3): 151
- hypothermia 60(4): 197
- IGF-I survival pathway 60(3): 166
- inducible nitric oxide synthase 60(4): 242
- insulin resistance 60(4): 207
- intracerebral hemorrhage 60(5): 259
- intra-striatal 60(5): 259
- kainic acid 60(1): 23
- lead acetate toxicity 60(1): 54
- lead toxicity 60(3): 183
- locomotion 60(6): 313
- man 60(1): 11
- master athlete 60(5): 293

- MDCK cells 60(2): 114
mechanism 60(5): 284
meditation 60(2): 124
melatonin 60(1): 1
memory 60(2): 106
methoxsalen 60(3): 174
mice 60(2): 106
microcurrent electrical nerve stimulation 60(1): 62
midkine 60(6): 353
midline shift 60(5): 259
mitochondrial pathway 60(6): 338
monascin 60(3): 158
Monascus purpureus NTU 568 60(3): 158
mood 60(6): 327
mountain biking 60(4): 231
multivitamin 60(5): 284
myenteric plexus 60(1): 41
- Na⁺/Ca²⁺ exchanger 60(4): 215
nicotinamide 60(4): 207
nicotinic acid 60(4): 207
nitric oxide synthases 60(6): 353
nuclear factor-kappa B 60(4): 242
nucleus tractus solitarii 60(6): 353
- Oct3/4 60(2): 81
open-water swimming 60(4): 197
oxidative stress 60(4): 207
- P450scc 60(2): 97
pancreatic carcinoma 60(2): 81
parasympathetic 60(1): 41
participation 60(3): 137
path analyzer 60(6): 313
percutaneous transluminal coronary angioplasty
60(3): 166
performance 60(5): 293
performance trend 60(3): 137
peritonitis 60(6): 329
phase shifting 60(6): 313
phospholipase C 60(3): 174
PI3K/AKT pathway 60(2): 89
porcine amniotic fluid-derived stem cells 60(6): 345
prostate cancer cells 60(1): 32
protriptyline 60(2): 114
- quality of life 60(2): 124
quercetin 60(1): 54, 60(3): 183
- recording 60(6): 313
recurrent aphthous stomatitis 60(4): 226
reduced glutathione 60(1): 1
remifentanil 60(3): 151
renal tubular cells 60(2): 114
running 60(1): 11, 60(4): 231
- salivary amylase 60(4): 226
salivary cortisol levels 60(4): 226
selenium 60(6): 329
sepsis 60(6): 329
sex 60(5): 293
sex difference 60(3): 137
sex steroids 60(2): 124
sleep deprivation 60(6): 327
sodium nitroprusside 60(1): 1
spinal 60(1): 23
spine 60(3): 151
STAI questionnaire 60(4): 226
StAR protein 60(2): 97
store-operated Ca²⁺ channels 60(5): 275
Stress 60(4): 226
superoxide dismutase 60(1): 1
suprachiasmatic nucleus 60(4): 215
supraspina 60(1): 23
surgery 60(6): 329
sweat gland density 60(5): 301
sweat gland output 60(5): 301
sweat rate 60(5): 301
sympathetic 60(1): 41
- testicular alteration 60(1): 54
thymol 60(1): 32
tyrosine hydroxylase immunohistochemistry 60(1): 41
- vasoactive intestinal peptide 60(4): 215
Vitis thunbergii var. *taiwaniana* 60(4): 242
- wild grape 60(4): 242
woman 60(1): 11
- ZAK α 60(5): 267
zona glomerulosa cells 60(2): 97
